

## SUBJECT INDEX

### A

- Acid
  - fatty, as inflammatory agent in acne, 88
  - folic, antagonists, 362
- Acne, fatty acid as inflammatory agent, 88
- Adenosine 3',5'-monophosphate, cyclic (see Cyclic AMP)
- Allergic type granuloma formation, 341
- Aluminum, granuloma formation with, 336
- Anagen, RNA synthesis in hair germ and dermal papilla, 201
- Anchoring, elastic fibril, 389
- Androgen receptor, in sebaceous glands, 215
- Anniversary Challenge (editorial), 65
- Announcements, 63, 118, 168, 227, 325, 393
- Antibody
  - antinuclear, specificity in scleroderma, 191
  - pemphigus, organ culture studies, 265
- Anti-inflammatory activity, topical, 161
- Antimitotic drug, hair growth inhibition, 70
- Antioxidant-reversed cytotoxicity, 366

### B

- Biopsy of pressure-wrapped hypertrophic scar, 385
- Blood flow
  - local regulation in scleroderma, 318
  - quantitative measurements in corticosteroid-treated skin, 196
- Brain, gamma benzene hexachloride in, after topical application, 310

### C

- Calcium, effects on prostaglandin biosynthesis, 210
- Cantharidin-induced inflammation, 161
- Capillary loops of dermal papillae, 44, 53
- Carotene, beta, photoprotection in erythropoietic protoporphyria, 157
- Catechol inhibition of collagen cross links, 146
- Cells, immunoglobulin-producing, in inflammatory infiltrates of cutaneous tumors, 346
- Cell line, malignant melanoma, tyrosinase in, 369
- Chloasma
  - $\beta$ -melanocyte-stimulating hormone and, 169
  - oral contraceptives and, 169
- Chlorpromazine phototoxicity, 313
- Cholesterol content, 206
- Cholinesterase inhibitor, percutaneous absorption, 357
- Collagen, inhibition of cross links by catechol analogs, 146
- Collagenase in epidermolysis bullosa, 119
- Complement deposition in cicatricial pemphigoid, 39
- Contraceptives, oral
  - $\beta$ -melanocyte-stimulating hormone and, 169
  - chloasma and, 169
- Corneocyte morphology, 350
- Corticosteroid-treated skin, blood flow measurement, 196

### Cyclic AMP

- accumulation in mouse skin, 125
- response in atopic eczema, 302
- response to isoproterenol, 125

### Cyclic nucleotides

- dermatologic aspects, 324
- effects on prostaglandin biosynthesis, 210
- Cytotoxicity, ultraviolet, antioxidant-reversed, 366

### D

- Deoxyribonucleic acid (see DNA)
- Dermis
  - dexamethasone binding, 307
  - epidermis separation from, 36
  - papillae
    - capillary loops, 44, 53
    - RNA synthesis, 201
    - tritiated uridine incorporation, 201
  - prostaglandin biosynthesis, 210
- Dermatitis, corneocyte morphology and, 350
- Dexamethasone, binding by subcellular fractions of epidermis and dermis, 307
- Dibutyltin, histologic changes in skin caused by, 379
- Disease, thyroid, epidermis in, 299
- DNA, epidermal, synthesis, 134
- Dormancy, RNA synthesis in hair germ and dermal papilla, 201
- Drug, antimitotic, hair growth inhibition, 70

### E

- Ear
  - sebaceous glands, 171
  - thermography, in skin lesions, 16
- Eczema
  - atopic, cyclic AMP responses, 302
  - wrist watch (Letter to the Editor), 394
- Epidermis
  - cell sera, 259
  - dexamethasone binding, 307
  - DNA synthesis, 134
  - interfollicular, in *ichthyosis* mouse, 23
  - nucleases, 285
  - prostaglandin biosynthesis, 210
  - pyrrolidone carboxylic acid biosynthesis, 293
  - response to thyroid disease, 299
  - separation from dermis, 36
  - separation of layers in newborn rat, 105
  - slices, rapid preparation, 108
  - stereology, 73
- Epidermolysis bullosa, collagenase in, 119
- Epithelium, cornifying, protein of, 277
- Erythema, ultraviolet, 128, 130
- Ester, cholesteryl, content, 206
- European Society for Dermatological Research, International Congress, May 2-4, 1977, program, 244

## F

- Factor (see specific factor)
- Fatty acid, as inflammatory agent in acne, 88
- Fiber, elastic, basal lamina anchoring to, 389
- Fibril, anchoring; -cutaneous basement membrane complex, 177
- Folic acid antagonists, in vitro screening, 362

## G

- Gamma benzene hexachloride, in brain after topical application, 310
- Gland, sebaceous
  - androgen receptor, 215
  - ear, 171
- Granule-bound tyrosinase, 88
- Granuloma formation, 336, 341
- Griseofulvin, hemopexin induction, 82

## H

- Hair
  - free, cross sectioning, 111
  - germ
    - RNA synthesis, 201
    - tritiated uridine incorporation, 201
  - growth inhibition by antimitotic drugs, 70
- Hemopexin induction by griseofulvin, 82
- Hepatic proliferation by griseofulvin, 82
- Histiocytoma, papular, 98
- Hormone
  - $\beta$ -melanocyte-stimulating, 169
  - control of androgen receptor in sebaceous gland, 215
  - steroid, action mechanism, 1

## I

- Ichthyosis, interfollicular epidermis in mouse, 23
- Immunoglobulin-producing cells in inflammatory infiltrates of cutaneous tumors, 346
- Indomethacin, ultraviolet erythema and, 130
- Inflammation, cantharidin-induced, 161
- Ischemia, cyclic AMP response to, 125
- Isoproterenol, cyclic AMP response to, 125

## K

- Keratinocyte, methotrexate effect on in vitro, 66

## L

- Lamina, basal, anchoring to elastic fiber, 389
- Leishmaniasis, thermography in, 16
- Leprosy, lepromatous, thermography in, 16
- Lesion
  - pemphigus, ultrastructure, 265
  - skin, thermography, 16
- Letter to the Editor, 394
- Leukocyte, cyclic AMP response in atopic eczema, 302
- Light, ultraviolet
  - cytotoxicity, 366
  - erythema in skin, 128, 130
- Lupus pernio, thermography in, 16
- Lupus vulgaris, transfer factor in, 10
- Lymphocyte, cyclic AMP response in atopic eczema, 302

## M

- $\beta$ -Melanocyte-stimulating hormone, plasma immunoreactive, 169
- Melanoma
  - B16, tyrosinase in, 272
  - malignant, cell lines, cellular localization of tyrosinase in, 369
- Membrane, cutaneous basement, -anchoring fibril complex, 177
- Methacrylates, sensitization potentials, 187
- Methotrexate, effect on keratinocytes in vitro, 66
- Methoxsalen, oral, psoriasis treated with, 328
- Microcirculation, dermal, ultrastructure, 44, 53

## N

- Nickel, wrist watch eczema from (Letter to the Editor), 394
- Nickel sulfate, granuloma formation with, 341
- Nose, thermography, in skin lesions, 16
- Nuclease, epidermal, 285
- Nucleotides, cyclic (see Cyclic nucleotides)

## P

- Papilla, dermal
  - capillary loops, 44, 53
  - RNA synthesis, 201
  - tritiated uridine incorporation, 201
- Past is Prologue (editorial), 327
- Pemphigoid, cicatricial, immunopathology, 39
- Pemphigus lesions, ultrastructure, 265
- Phenothiazine phototoxicity, 313
- Plasma immunoreactive  $\beta$ -melanocyte-stimulating hormone, 169
- Porphyria, biosynthesis, 5
- Potassium dichromate, granuloma formation with, 341
- Presidential Address: Dermatological Research or Research in Dermatology, 229
- Pressure-wrapped hypertrophic scars, biopsy of, 385
- Prostaglandin
  - biosynthesis, 210
  - cytologic and metabolic effects on skin, 138
  - dermatologic aspects, 324
  - $E_2$ , topical, epidermal DNA synthesis and, 134
- Protein
  - cornifying epithelium, 277
  - tetrachlorosalicylanilide photoreaction with, 151
- Protoporphyrin, erythropoietic, photoprotection in, 157
- Psoriasis
  - dermal papillae capillary loops, 53
  - oral methoxsalen treatment, 328
- Pyrrolidone carboxylic acid, biosynthesis, 293

## R

- Receptor, androgen, in sebaceous glands, 215
- Reviews of Books and Audiovisual Aids
  - Acnes, The: Clinical Features, Pathogenesis and Treatment (Major Problems in Dermatology, Vol. 6)*, 225
  - Allergic Contact Dermatitis: Examples and Approaches (A Brief Course in Dermatology)*, 116
  - Atopic Dermatitis (A Brief Course in Dermatology)*, 116

- Chemistry and Biochemistry of Natural Waxes*, 391  
*Congenital Ectodermal Defects, Parts I and II*, 225  
*Dermatoglyphics in Medical Disorders*, 165  
*Dermatologic Radiotherapy*, 323  
*Dermatological Photobiology: Clinical and Experimental Aspects*, 166  
*Dermatology*, 113  
*Frontiers of Matrix Biology, Vol. 2, Adipose Tissue: Lipids and the Intracellular Matrix*, 165  
*Genetic and Malformation Syndromes in Clinical Medicine*, 322  
*Haut- und Geschlechtskrankheiten, Methodische Diagnose und Therapie für Studium und Praxis*, 226  
*Living with Our Sun's Ultraviolet Rays*, 61  
*Molecular Biology of Skin, The*, 113  
*Oral Mucosa in Health and Disease*, 114  
*Psoriasis (A Brief Course in Dermatology)*, 115  
*Sensory Functions of the Skin of Primates with Special Reference to Man, Vol. 27 of Wenner-Gren Center International Symposium Series*, 322  
*Skin Lesions Depicted and Defined—Part I, Primary Lesions (A Brief Course in Dermatology)*, 115  
*Skin Lesions Depicted and Defined—Part II, Secondary and Special Lesions (A Brief Course in Dermatology)*, 115  
*Steroid Therapy*, 166  
*Systemic Lupus Erythematosus*, 61  
*Techniques for Examination of the Skin (A Brief Course in Dermatology)*, 115

*Yearbook of Dermatology 1976, The*, 391  
*Zola Cooper Memorial Clinicopathologic Seminar—1974*, 62  
*Zur Immunopathologie der Neurodermitis constitutionalis*, 165
- Ribonucleases, epidermal, 285
- Ribonucleic acid (see RNA)
- RNA synthesis of hair germ and dermal papilla, 201
- S
- Salt-impregnated pads, long-term sweat collection using, 221  
 Scar, hypertrophic, pressure-wrapped, 385  
 Scleroderma  
   antinuclear antibody specificity, 191  
   blood flow regulation in, 318  
 S-(2-diisopropylaminoethyl) o-ethyl methylphosphonothioate (see VX)  
 Sebaceous gland  
   androgen receptor, 215  
   ear, 171  
 Serum, epidermal cell, 259  
 Skin (see also Dermis; Epidermis)  
   cyclic AMP accumulation, 125  
   dibutyltin and, 379  
   effect of prolonged continuous exposure to water, 79  
   folic acid antagonists, 362  
   lesions, thermography, 16  
   prostaglandin effects on, 138  
   ultraviolet erythema, 128, 130  
   water content, 379  
   <sup>133</sup>Xe wash-out, 196  
 Society for Investigative Dermatology, Inc., Annual Meeting, April 29 and 30, 1977, program, 229  
 Steroid  
   corneocyte morphology and, 350  
   hormone, action mechanism, 1  
 Stripping, corneocyte morphology and, 350  
 Sunburn, 128, 130  
 Sweat, long-term collection, 221
- T
- Telogen, RNA synthesis in hair germ and dermal papilla, 201  
 3,3',4',5-Tetrachlorosalicylanilide, photoreaction with proteins, 151  
 Thermography, in skin lesions, 16  
 Thyroid disease, epidermis in, 299  
 Tissue, subcutaneous, regulation of blood flow in scleroderma, 318  
 Transfer factor in lupus vulgaris, 10  
 Transglutaminase, epidermal, immunologic properties, 32  
 Tuberculosis, thermography in, 16  
 Tumor, cutaneous, Ig-producing cells in inflammatory infiltrates, 346  
 Tyrosinase  
   B16 melanoma, 272  
   cellular localization, 369  
   granule-bound, 88
- U
- Ultraviolet light (see Light)  
 Uridine, tritiated, incorporation in hair germ and dermal papilla, 201
- V
- VX, percutaneous absorption, 357
- W
- Water  
   content of skin, 000  
   effect of prolonged continuous exposure on skin, 79  
 Wrist watch eczema (Letter to the Editor), 394
- X
- <sup>133</sup>Xe wash-out from human skin, 196
- Z
- Zirconium, granuloma formation with, 336, 341
